

It is important to note that the crime classifications for which colleges and universities must provide statistics differ under state and federal law. Statistics for certain crime classifications might appear to be different. For example, the federal statistics for motor vehicle theft differ from the state statistics for the same category because the federal classification includes attempted motor vehicle thefts, while state law requires institution to separately report attempted motor vehicle thefts.

**The Pennsylvania College and University Security Information Act.
Campus Crime for Cheyney University of Pennsylvania.**

The Pennsylvania College and University Security Information Act requires the release of crime statistics and rates to students and employees, and it requires that those statistics be available to applicants and new employees, upon request. The rate is based on the actual number of Full Time Equivalent (FTE) students and employees, which is calculated according to a state-mandated formula. The index in the table below is based on incidents per 100,000 FTEs. The University's FTE population for 2006 was 1950, 2007 was 1768 and 2008 was 1922.
